

Verification of Non-Filing

I certify that I have not filed and I am not required to file an **IRS 2022 income tax return (1040)**. Based on the students Verification Tracking Flag and academic award year, a listing of the sources of any 2022 income earned from work by the student and/or parents and the amount of that income must be provided to the financial aid office and will be verified by submitting a copy of the student's/parents IRS W-2 Form, or an equivalent document, for each source to verify the students and parents 2022 income and tax information. Any untaxed income reported on the students FAFSA and/or ISIR may also have to be verified.

NOTE: At any time the institution questions the accuracy of the information that is being provided to them on the signed copy of the paper tax return, the FA Office must, ***before verification can be completed***, submit the IRS Form 4506T-EZ or Form 4506-T to the IRS and wait for the IRS to return the requested tax transcript or confirmation that a tax transcript is not available for that tax filer.
