PROGRAM REVIEW 2019-2029**

New programs are reviewed at the end of the third or fourth academic year depending on the semester start date. The purpose of this review is to examine viability in terms of productivity and cost. Any program deemed unproductive is reviewed to determine program status. PCCUA has some very small programs which have relatively low costs and high job placement. These programs may reflect low productivity but by institutional measures result in low cost and immediate job placement.
